MEMBER OF THE MONTH Santiago Segarra

Member of the Month, Dr. Santiago Segarra, is an Assistant Professor of Computer Science and Electrical and Computer Engineering. Santiago shares his thoughts on his research and interests. Read the full article at kenkenedy.rice.edu.

What challenges do you see in your research that you didn't expect?

Interdisciplinarity can be a double-edged sword. Although the success stories are a lot of fun, there are many projects that die off mainly due to language barriers between disciplines, miscommunication, or lack of alignment of the expectations. Overcoming these barriers is certainly a challenge in any new collaboration.

The data.org Inclusive Growth and Recovery Challenge

Transformative change can happen only by tapping into the expertise of a broad pool of thinkers and doers. As part of our commitment to building the field of data science for social impact, data.org launched a \$10 million data.org Inclusive Growth and Recovery Challenge.

The challenge is an open call for breakthrough ideas that harness the power of data science to help people and communities thrive especially in the wake of COVID-19's economic impact. Visit data.org/challenge.
