Oak Ridge National Lab is sponsoring the challenge comprised of six data analytics challenges based on data sets drawn from active research efforts at the Laboratory and one category based on the COVID-19 Open Research Dataset Challenge (CORD19). Expert data scientists and students are called to participate.

Registration is open until June 22. Solutions are due July 27. Winners will have an opportunity to publish their solutions and participate in the Smoky Mountains Computational Sciences and Engineering Conference. Please join our kick-off webinar on Wednesday May 20 at 1:00 p.m. EDT.

Visit smc-datachallenge.ornl.gov

RECODE is for computational Rice undergraduate and professional masters students whose summer plans have been affected by the Covid-19 pandemic. RECODE will help students seeking research positions and provide virtual opportunities for support and engagement throughout the summer. Faculty can post open research positions in computational and data sciences.

Sponsored by the Rice D2K Lab in partnership with the Ken Kennedy Institute and the Departments of Computer Science, Electrical and Computer Engineering, Statistics, and CAAM.
